### A FLOATING PALACE.

The Latest Steamer.

(From Our, Correspondent.) LONDON, January 13.

The Royal Mail Steam Packet Company is the latest to set the pace with luxury aboard the ocean liner, and South American passengers are to be congratulated on the latest floating palace placed at their disposal. The new ship is the "Asturias," of the "A" type of the company's vessels, and she starts on the 24th for Australia on her maiden trip to Colombo and Australia, after which she will go on the River Plate route. As this company also run the Shire line, and are showing remarkable enterprise of late, it may be of interest to the Far East to know how thoroughly the company progress, in the event of their making similar developments on the China

Messra Harland and Wolff are the builders of this fine steamer, and she this week brought round from Belfast to London in preparation for her really serious work. By the courtesy of the directors I have had an opportunity of personally testing her seaworthiness and her extraordinarily complete equipment for the comfort and pleasure of those who are fortunate enough to travel by her. She is a 12,2000 tons, twin screw steamer, with Messrs Harland and Wolff's latest "balanced" quadruple type of engines on board. These engines reduce the vibration to a minimum, and while the vessel is almost immovable in a galo—aa l found in the Channel—the engines can scarcely be felt in any part of her, so that noither from roll nor vibration are the passengers subjected to discomfort.

More than that, there is every concession to luxury loving travellers, for right down 816 to the latest detail the utmost care has been taken to meet the requirements. even the fancies, of one and all. The artistically inclined will find the decorations a thing of beauty and a joy for the entire trip. The wood work is light oak, admirably THE ORDINARY YEARLY MEET- fashioned, while the colour scheme is white and gold. The dining saloon of the first class seats three hundred, and the restaurant principle has been adopted. There are small tables, intead of long, frigid rows, and the bill of fare is so varied and flexible that individual tastes can be met regardless of the order of the meal. Attached thereto is a special dining room for children with appropriate decorations, and the little-ones have also a special dock for amusements and games Taking the latest model lift the passengers may ascend to the social hall elegantly furnished and equipped with an Erard grand piano and a choice selection of the THE ANNUAL GENERAL MEETING latest books. Or they may proceed to the other extremity of the deck to the two smoke ing rooms of the first class, also luxuriously appointed, and bearing art panelling repre-CITY HALL, for the following purposes, senting various cities of the world, costing in themselves no less than a thousand

> The first class cabins are designed to give privacy and all the latest additions to comfort. To attain the privacy there are numerous single berth cabins, while for married people there are luxurious double bedded staterooms arranged on the tandom principle-that is there are two comfortable beds on the floor instead of the old fashioned bunks one over the other. The remark that may be passed on the

second class accommodation cabins, dining

room, and smoking rooms alike-is that to

the eye it appears almost as good as the first.

The chief difference is probably in the com-

the third class section of the ship, and here

again there is comfort that seems out of

proportion to the fare paid. Families or

friends can there secure large roomy cabins

equipped for various numbers, according

# Hackenschmidt's Great Rival

The formidable young wrestling champion who has issued a challenge to Hackenschmidt, is authoritatively stated to be the most dangerous rival who has ever come forward to dispute the supremacy of the redoubtable Russian. Constant le Marin is the very personification of health, strength, and energy, and his magnificent frame is splendid evidence of the careful and methodical way he fosters his wonderful muscular development, which, he says, he can only keep perfectly vigorous and well braced by the aid of Phosferine. As The Remedy of Kings' Phosferine is universally

familiar, but it is now equally 'The Remedy of Champions,' for Le Marin's striking admission of the remarkable energising properties of Phosferine is supported by similar tributes from nearly every well known Athletic Champion. The unstinted praise of men so renown ed for their glorious strength and endurance as Apollo, the Ideal Athlete, Gunner Moir, Champion Heavy-weight Boxer of England, Tom Burrows, The World's Champion Club Swinger, &c., is a positive assurance that Phosferine will be immensely beneficial to everyone who seeks its aid. Constant le Marin' says 'Phosferine gives Stamina and Muscular Energy both before and after a contest,' and as both he and other famous athletes must always be sure of things, and omit nothing that helps in the struggle to become paramount, the complete confidence they express in the recuperative and sustaining properties of Phosferine, should convince even the most desponding weaklings that bad health and nervous exhaustion can

comminly be permanently cured by a course of the famous tonic. What the Champion advises.

CONSTANT LE MARIN, Champion of the World, writes:—"I consider Phosferine a great factor in the formation and increase of Stamina and the maintenance of that standard of Physique which is so necessary to uphold great muscular activity. The tonic tones up the system and promotes that strong, vigorous action of the heart without which a perfect wrestler can never hope to achieve the proud distinction of Champion. I most heartily recommend it to my fellow countrymen and my great English adversaries so that we may meet on perfectly equal terms and profit by its invigorating influence. As a recuperative and sustaining tonic both before and after a contest, I find Phosferine par excellence, and I am confident that it is the very best aid in keeping one in battle trim."- July 25, 1907.

The Royal Example.

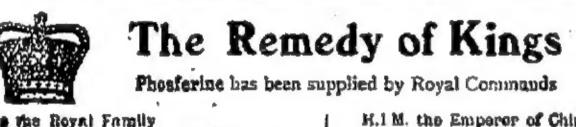

Phosferine is used by the Royal Families of Europe which, in plain language, means that every user of Linton beating Biden on the post in 23 Phosferine knows and feels that this famous Tonic min. 11 sec. is commended by the greatest living Physicians.

#### Slow Development.

(From Our Correspondent.)

Canton, February 18. A Portuguese has arrived at Canton and is living in one of the hotels. He is reported to be a man of some influence, and has come in connection with the seized

arms and ammunition. So far as is known at present the Canton authorities have assumed a squewhat strong position and persistently refused to entertain the demand from the Portuguese. It is stated that the arms, etc., on board, were at first entirely unknown to the Maego Government, until after the scizure In official circles it is stated that the Japanese demand consisted of the release of the vessel and payment for detaining her at so emuch money a day, and that no mention was made about the arms , and ammunition. The Canton authorities. however, main ained that sufficient proof has been obtained, and that the confiscation of the vessel with everything on board must be carried out according to treaty. A cablegram to that offeet has been sont

The Japanese demand has been lodged with the Viceroy, and on an official enquiry the captain was not present.

### Japanese Views.

The following Takyo telegrams appeared in the "Japan Gazetta" of February 10 . With regard to the seizure of Japanese steamer Tatsu-maru 11 (3,150 tons) by Chinese gunboats near Macao on the 5th inst, the Directors of the Japan Shipowners Union, meeting this morning, adopted a resolution declaring the seizure illegal and applying to the authorities for her release... The resolution was immediately forwarded to the Foreign Office.

About 1,800 rifles and 40,000 rounds of shot seized on board the steamer were consigned by S. Aways, of Osaka. The exportation of these goods was duly recogniz-ed by the Osaka Police, the Kobe Harbour Office and the Kobe Customs House. Moreover, the importation was permitted by the Macao Government. The seizure of the steamer in addition to her cargo is thus held to be illegal. The steamer was bought from an English firm in 1904 and chartered by the Japanese Government during the Kobe-Hongkong liner.

## The Owners' Story.

The Kobe "Mainichi" learns from the Tatsuma-Shokai, Naine, the owners of the steamer, that she was taking 40 cases of one kind of rifles and 50 cases of another kind, with 40 cases of ammunition, to Macao, the arms being consigned by the Ataka-Shokai, of Osaka. As all the Customs and other formalities had been properly complied with, the soizure must be attributed to some misunderstanding on the part of the Chinese authorities concerned. The Japanese Shipowners' Association yesterday asked the Foreign Department to make representations to the Chinese Government for the purpose of prevent-Zakakhels and surprised the strongest ing similar occurrences from taking place. The steamer shipped about 1,300 tons of marine and other products at Kobe on the 26 ult., for Hongkong, and 1,400 tons of coal at Moji on the following day. As the goods were intended for the Chinese New Year season, the consignees will suffer much less. The Chinese consigners held a meeting at the premises of the Canton Two Japanese arriving at Victoria Association here yesterday, to consider the steps to be taken by them in the matter. The steamer was at anchor outside Macao harbour because she had explosives on board, and not because she was violating the law.

It would be remembered that the result was very satis actory. He saw that among those present there were members of the kaifong from that district who were still doing good work, and he wished to thank them publicly for it. The present Governor, ever since his arrival in the Colony, has always had the welfare of the people at heart and would not like to see the people suffering under any grievance. He knew that the Chinese respected the dead, and serve the well by cleaning it out and by that they must have some reason for the

### RIOT AT TOKYO Increased Taxation Resented.

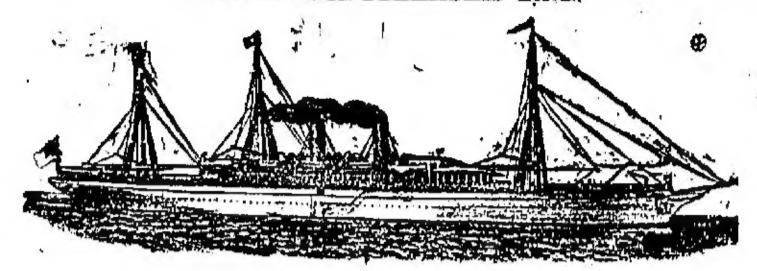

At noon on February 11, some Socialists dolivered speeches in Hibiya Park. Tokyo, against the increase of taxation. As their intentions had been previously reported, about 1,000 roughs had assembled in the Park at the time and applauded the speakers. Eventually the police ordered one of the speakers to stop, on the ground that he had used provocative language, whereupon the roughs threatened conflict, the police, obeying their instructions, then withdraw. The roughs, thus Cargo impeding the discharge or re- deprived of their prey, turned their attention to the tramears passing the Park, which they assailed with stones, with the result that several car windows were broken and some passengers injured. The Electric Tramway Company was consequently obliged to stop the traffic until the mob had dispersed. Tranquility was restored t. & O. S. N. Co.'s Office.

AIRSHIP TO CARRY 100.

Count Zeppelin proposes to build an airship to carry a hundred persons. He calculates that it will only be necessary to build it 26 feet longer than his lates airship, which is 137 feet long, and which carried eleven persons in addition to 3,300 pounds of ballast. Experts believe that the Count will succeed in his undertaking.

.. The steamer Mefoo (Capt. McArthur) The P. M. S. S. Mongolia sails from from Shanghai reports strong monsoon and heavy son between Heishan and Breaker Point, and thence fine weather to port,

with a strong breeze. Numerous orders for tank steamers have been placed with shipbuilding concorns in Great Britain, and we are able to state that not less than twenty vessels will be delivered before midsummer.

According to a Nagasaki message the vessel runs between Nagasaki and Tairen, receiving a subsidy from the Nagasaki Prefecture. She is aground about 30 miles. from Kunsan, and communication between the steamer and that place is very difficult.

The Toulon correspondent of the "Journal" telegraphs, says a Central News message from Paris, that an unpleasant ramour is prevalent there to the Kaifong, Germania, C. Diederichsen effect that when the transport Nive was stranded at Casablanca on the night of December 31 certain of the officers were suffering from the effects of opium smoking.

A Chemulpo telegram to the "Mainichi reports that an February 12 the steamer Shinanogawa Maru went agrounds off Kunsan. Owing to the high sea then prevailing she could not get assistance and it was not until the following Saturday . that the passengers were taken off by the Ohio No. 1. The passengers had to undergo severe lardships, being in danger of being frozen to death.

Hongkong Tides. The tide table given below has been compiled at the Nautical Almanac Office

in London from the result of the analysis of observations taken by means of an automatic tide-recording machine in the Water Mr. Alexander Mr. C. Ambrosoli che years 1887-8-9. The zero of the table corresponds with the zero of the soundings in the Admiralty Charts which has been found to be 4 feet

inches below mean sea level. To obtain the depth of water on the tide gauge at the Victoria Naval Yard add 3 feet 4 Inches, and on the gauge at Lamont Dock, Aberdeen, add 10 feet 6 inches to he height given in the table. Mr Forey
